

NOTICEBOARD PRODUCTS

Noticeboard Products are proud to be using PolyVision e3 CeramicSteel which is 99.9% recyclable and the only globally C2C certified surface of its kind. It is safe and clean, with no harmful chemicals.

Super smooth writing surface
Optimum erasability
Scratch, fire, bacteria and chemical resistant
Greater colour contrast
Minimal surface/light distortion
Enhanced visibility and optimum eye comfort

e3 SURFACE CARE FOR YOUR WHITEBOARD

e3 environmental ceramicsteel™

General cleaning instructions for e3™ whiteboard surfaces

1. Wipe board with a clean cloth moistened with a high quality whiteboard cleaner. Note: Using a non appropriate cleaner may result in poor dry eraseability due to the build-up of residues from the cleaner on the surface.
2. Rinse with clean, warm water to remove any cleaner residue (a very important step).
3. Wipe dry with a clean cloth.

Boards used moderately should be cleaned two to three times a week.

Boards used more intensely may require daily cleaning.

First use of e3 environmental ceramicsteel

If present, remove the protective film. Then, do steps 1-3 above.

Removing permanent marker

To quickly and easily remove permanent marker, write over the top of the writing with a dry-erase marker. Then, simply erase.

In most cases, this will remove the marker. But if a deeper cleaning is required:

Moisten a clean, dry cloth with meths or high quality whiteboard cleaner.

Wipe the board in a circular motion to loosen marker residue.

Rinse with clean, water and dry with a clean cloth.

Repeat these steps, as necessary, to remove all residue.

Soap residues on the board will result in decreased dry eraseability. Therefore, rinse well with clear water and wipe dry with a clean cloth (a very important step).

Additional hints:

Use high quality, (avoid low odour) dry-erase markers to avoid poor eraseability.

Replace markers when almost dry to avoid poor eraseability.

Replace the eraser felt regularly. Dirty felts or erasers will result in poor eraseability.

NBP are pleased to offer a replacement guarantee on Porcelain e3™ whiteboards against surface defects or delaminating of the boards, when used in situations for which the board is intended and maintained in accordance with the manufacturers' instructions. The NBP guarantee applies for 20 years from date of purchase and specifically excludes damage by misuse or abuse of the boards. You will be required to present proof of your purchase. If the writing surface fails through normal usage, with prescribed cleaning procedures, we will replace it, if it can not be restored.
