

WHY WARWICK FABRICS

All Warwick fabrics comply with relevant industry standards and are rigorously tested for abrasion resistance, seam slippage, pilling, colourfastness, the absence of Free Formaldehyde, pile retention for velvets and dimensional change for drapery.

ASHCROFT 60% Polyester | 40% Recycled Polyester | 295 gsm

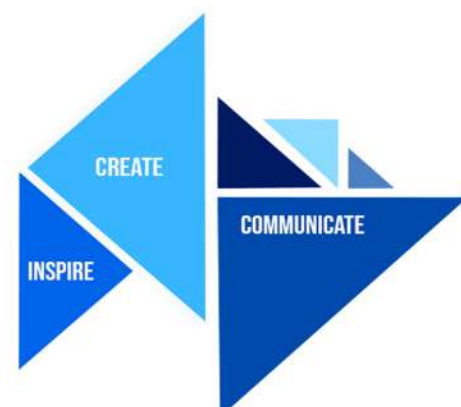

Ashcroft belongs to Warwicks latest product brand '**Encore**' - High Performance upholstery fabrics **using recycled polyester**. 'Encore' fabrics are designed to acknowledge a growing consumer and industry demand for products that are environmentally considerate.

Ashcroft is also **rated for heavy commercial** upholstery applications and is a Halo fabric woven to precise specifications and tested to exacting standards for colourfastness, abrasion, inherent stain resistance and safety.

BEACHCOMBER 100% Polyester | 837.2 gsm

Beachcomber is one of our **best-selling fabrics** and for good reason. FR tested with a heavy commercial rating, Beachcomber is the **perfect staple** for all your pinboard needs offering timeless style in a multitude of colours and moods.

BLAZE 100% Polyester | 568 gsm

Blaze brings **colour, texture and durability** to the fore with a stylish range that transcends conventional plains by using tonal variations to enhance intensity. The robust plain gains interest and depth with interwoven, **multi-coloured yarns** and dry textural qualities to deliver a high performance solution for today's interiors.

**GLOBE & GYRO** 100% Polyester | 464 gsm & 317.4 gsm

Two separate worlds combine with these great new textured plains, each designed to offer the ultimate platform for **modern furnishing accents** and value priced to make fabric selection easy and affordable.

Introducing 'Globe and 'Gyro, two striking jacquard woven plains. Each fabric is harmoniously piece dyed in a range of 16 contemporary colours.
